## Product Description

### 2T Mini Hoisting Crane with Derrick Crane to Remove Derrick on Top Buildings

#### Description

##### it used for dismantle Derrick Cranes

1. The Derrick cranes is fixed to the roof.
2. The base is then attached to the slewing unit that allows the crane to sewing.
3. On top of the slewing unit there are two main parts which are: the long jib, shorter counter-jib,
4. The long jib is the part of the crane that carries the load.
5. The crane operator either sits in a cab at the top of the tower or controls the crane by radio remote control from the ground.
6. The lifting hook is operated by the crane operator using electric motors to manipulate wire rope cables through a system of sheaves.

#### RAQ

##### 1. Are you a manufacturer or a trading company?

We are as a professional manufacturer / factory since 2002 year for 15 years.

##### 2. What is your advantage?

- 1) We are a manufacturer, so the price is more competitive than the trading company.
- 2) It is more effective to communicate with the factory, saving more time for you.
- 3) Timely after sales service
- 4) We also produce other construction machinery such as construction hoists, derrick cranes and ZLP Suspended Platform to meet your requirements.

##### 3. How do you guarantee your product quality?

We have our professional testing department , and will test the machine all the progress, and will test it after finished and before delivery.

##### 4. I plan to label our logo on your products, is that possible?

Sure it is ok. OEM is available for us. Just send your logo, brand name or picture to us.

##### 5. How about the warranty period ?

The warranty will be one year from the date of shipment. Any detected parts during this period caused by the quality of products will be replaced by seller free of cost (exclude wear and tie parts), improper operation and other man made reasons are excluded.
