

10tons TC5023 Hammer Head Tower Crane 3m Mast Lifting Building Materials

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: AVITT or others
- Certification: CE, ISO, GOST, CU-TR
- Model Number: TC5023 Tower Crane
- Minimum Order Quantity: 1
- Price: \$85900-103500 per set
- Packaging Details: Naked packing, 6*40'HQ containers.
- Delivery Time: 20 days after receiving the deposit or origin LC
- Payment Terms: TT, LC
- Supply Ability: 20 sets per month

Product Specification

- Condition: 100% New
- Application: Construction Buildings And Projects
- Type: Hammer Head
- Max. Load: 10tons
- Jib Length: 50m
- Tip. Load: 2.3t
- Power supply: 380V/50Hz Or According To Client's Requirements
- Mast: 3m
- Electric Box: Schneider
- Power Supply: 380V/50Hz, 415V/50Hz, 220V/50Hz Or According To Clients Need

Product Description

10tons TC5023 Hammer Head Tower Crane 3m Mast Lifting Building Materials

Shot introduction

QTZ5023 Hammerhead tower crane for sale
Fixed / stationary / anchored tower crane
Max. load: 10ton
Tip load: 2.3ton
Jib length: 50m
CE, ISO, GOST, CU-TR certificate

Specification

Rated Lifting Moment	1250KN.m
Rated Loading Capacity	10t
Max. Lifting Load	10t
Tip Load	2.3t
Max. Lifting Height	200m
Span	50m
Free standing height	45m
Rope length	470m
Working range	3-50m
Slewing speed	0.6 or 0-0.6r/min
Trolley speed	60 or 0-60 m/min
Jacking-up speed	0.4 m/min
Hoisting speed(m/min)	(a=2) 0-3.8/38/76 (a=4) 0-1.9/19/38
Power supply	380V/50Hz or others
Power Capacity	61.5 kw
Electric switch box	Schneider
Main materials	180*18mm/Q345B
Mast section dimensions	1.6*1.6*3m (split)

Our advantage

1. 15 years of experience in supplying new external climbing tower crane with HYCM Brand.
2. Export to more than 20 countries with CE/ISO/GOST/CU-TR Certificates.
3. Stationary/Traveling and internal climbing type tower crane are available
4. Impeller blasting/rust protection paint
5. Advanced painting process
6. Strict and experience welding line
7. New designed mast, can be used to Internal and external climbing tower crane
8. Well known brand mechanism system, Schneider Electronic control system, Jjiangte and Jiuhe motor
9. Engineers available to service machinery overseas.
10. For warranty, it is 12 months from the B/L date. What's more, some free easy worn spare parts are provided together with the crane.

Our Team

Our R&D team is made up of the most prestigious, experienced engineers and experts in this field. Our technicians team are all experienced senior mechanics.

We provide satisfactory service (pre-sale, while-sale, after-sale).

Our professional advice and instruction is always available.

Components

Tower cranes are used extensively in construction and other industry to hoist and move materials. There are many types of tower cranes. Although they are different in type, the main parts are the same, as follows:

Mast: the main supporting tower of the crane. It is made of steel trussed sections that are connected together during installation.

Slewing unit: the slewing unit sits at the top of the mast. This is the engine that enables the crane to rotate.

Operating cabin: the operating cabin sits just above the slewing unit. It contains the operating controls.

Jib: the jib, or operating arm, extends horizontally from the crane. A "luffing" jib is able to move up and down; a fixed jib has a rolling trolley that runs along the underside to move goods horizontally.

Hook: the hook (or hooks) is used to connect the material to the crane. It hangs at the end of thick steel cables that run along the jib to the motor.

Weights: Large concrete counterweights are mounted toward the rear of the mast, to compensate for the weight of the goods lifted.
