Product Description

Hot 110v to 240v 50hz Electrical Battery Control Hydraulic Self Propel Scissor Lift

General Introduction

A: Self moving, do not need outriggers

B: Operator can control the scissor lift on the platform at full height

C: lifting height: 4-14m, customized

D: ISO, CE certified

E: Quite and convenient

The scissor lift takes storage battery as the power source, and makes low noise and no emission when working, wide indoor use such as workshops, warehouses, hotels, etc.

F: Flexible The steering wheel can make a 90° turn in site, can run in both high and low speeds, and can be used in small space. The small solid rubber wheels move slightly, and it has no any damage to the floor.

G: Scissor structure and maintenance bar The stress of load capacity and structure are dispersed on each scissor structure by the ingenious design, which will extend the use life of the machine.

H: Large working space The platform can extend 900mm on one side, which can enlarge the working space.

I: Swing-out tray The trays in both sides of the chassis can be swung out, convenient for maintenance, inspection and replacement.
