Product Description

sc200/200 2 cabin hoist 130 meter Height 2000kg per cabin and 60hz Energy Lifting People

Description

The Elevator is designed for passenger and materials transport. It offers, efficiency, safety, reduced energy consumption and low operating costs, making it the ideal hoist solution for construction and rental companies. A modern microprocessor hoist control system with stop-next-landing control allows for simple operation and ease of use. while a hoist capacity of 4,000 kg offers increased transport capacity at a low cost. With a larger hoist car, higher speeds and increased lifting heights, the SC200/200 is the perfect hoist solution for high-demand and high-rise construction, new build construction, refurbishment, chimney, offshore and bridge construction.
