Product Description

8tons Tower Crane 60m Yellow EAC COC certificate with PLC Control and 1.6*1.6*3m Mast

Product Description:

With a maximum load capacity of 8 tons, the QTZ80 can handle heavy loads with ease. Its hoisting speed ranges from 0-100 meters per minute, making it a speedy and efficient option for your construction site.

The crane's control system is available in two options: PLC or frequency conversion. Both options provide precise and reliable control, allowing you to operate the crane with ease.

The QTZ80 Tower Crane also boasts an impressive 60m working arm, providing an extended reach for your construction needs. Whether you're working on a high-rise building or a large-scale construction project, this crane can handle the job with ease.

Overall, the QTZ80 Tower Crane provides a reliable and efficient solution for your construction needs. Its flat top tower head, high load capacity, precise control system, and impressive working arm make it a top choice for construction professionals.

Features:

Product Name: Flat Top Tower Crane

Max Load Capacity: 8 Tons

Power Supply: 380V/50Hz Or Customized

Free Height: 45m

Control: VFD

Mast Setion: 1.6*1.6*3m

60m Working Arm

Flat Top Tower Crane

60m Working Arm

Technical Parameters:

Product Name	QTZ80 Flat Top Tower Crane

Applications:

The Avit QTZ80 is a perfect fit for high-rise buildings, bridges, power plants, and other construction sites that require lifting heavy loads. Its jib can reach up to 60 meters, and its free height is 45 meters. The flat top design makes it easy to install and operate, making it ideal for areas with limited space.

Avit QTZ80 Flat Top Tower Crane is available for purchase with a minimum order of 1 set. It is packed in containers and can be delivered within 15-20 days. Payment terms are 30% TT deposit and 70% before delivery. The supply ability of the product is 30 sets per month, ensuring that your construction needs are met on time.

The Avit QTZ80 Flat Top Tower Crane is the perfect solution for lifting heavy loads in a variety of construction scenarios. Its EAC COC certificate ensures that it is built to the highest standards of quality and safety. With its impressive load capacity, lifting speeds, and working conditions, the Avit QTZ80 is a reliable and efficient product that can get the job done.

Customization:

This crane has a trolley traveling speed of 0-40 M/min and a hoisting speed of 0-100 M/min. Its mast section is 1.6*1.6*3m, making it

suitable for construction projects that require a 3m mast section. The crane is equipped with a VFD control system that provides smooth and precise operation. The tower head of this crane is flat top, which makes it easy to assemble and disassemble. Avit also offers product customization services for its Flat Top Tower Crane. If you require specific modifications to the crane, such as changes to the mast section or control system, Avit can accommodate your needs. Contact us to learn more about our customization services.

Order your Flat Top Tower Crane from Avit today and experience its quality and reliability.
