## Product Description

### QTZ80 Flat Top Tower Crane with 0-100 M/min Hoisting Speed accept payment from Russia

#### Product Description:

The crane is equipped with a state-of-the-art VFD control system that provides precise and reliable control over the crane's movements. This allows operators to adjust the hoisting speed as needed, with a maximum speed of 0-100 M/min, ensuring that materials are lifted and moved quickly and safely.

The control system of the crane is either a PLC or frequency conversion, which ensures that the crane is efficient and reliable, even in the most demanding working conditions. The crane is equipped with a 3m mast section, which makes it easy to set up and operate, even in tight spaces.

The crane is manufactured in Russia to the highest standards of quality and safety, ensuring that it is durable, reliable, and able to withstand the rigors of heavy-duty construction work. Whether you are working on a large-scale construction project or a smaller-scale renovation, the Flat Top Tower Crane is a powerful and versatile tool that will help you get the job done quickly and efficiently. Overall, the Flat Top Tower Crane is an excellent investment for any construction company looking for a reliable and efficient crane that can handle a wide range of applications. With its 60m working arm and advanced control system, this crane is sure to meet all of your construction needs.

Tower Head: Flat Top

Jib: 60m

Power Supply: 380V/50Hz Or Customized

Max Load Capacity: 8 Tons

8ton Load Capacity

45m Free Height

8ton Load Capacity

#### Technical Parameters:

Warranty	1 Year
Main Chord	180*18mm
Mast Section	1.6*1.6*3m
Applicable Working Conditions	High-rise Buildings, Bridges, Power Plants, Etc.
Power Supply	380V/50Hz Or Customized
Hoisting Speed	0-100 M/min
Trolley Traveling Speed	0-40 M/min
Control	VFD
Free Height	45m
Tower Head	Flat Top

Flat Top Tower Crane is a reliable and efficient solution for high-rise buildings, bridges, power plants, and other construction sites. It comes with a 1-year warranty and is equipped with a VFD control system for better performance. The tower crane has a flat top tower head and a free height of 45m. Its main chord has a dimension of 180\*18mm, while the mast section measures 1.6\*1.6\*3m. The power supply can be customized based on your requirements. The hoisting speed of this crane can range from 0-100 M/min, while the trolley traveling speed can go up to 0-40 M/min. It is also equipped with an EAC COC certificate for added safety and quality assurance.

#### Applications:

The Avit QTZ80 Flat Top Tower Crane has a trolley traveling speed of 0-40 M/min and comes with a jib of 60m. The tower head of this crane is a flat top, which makes it easy to install and disassemble. It is ideal for use in high-rise buildings, bridges, power plants, and other construction projects.

With its one-year warranty, the Avit QTZ80 Flat Top Tower Crane is a highly reliable product that can be used in a variety of conditions. It is an excellent choice for construction projects that require a reliable and efficient tower crane.

## Support and Services:

The Flat Top Tower Crane product technical support and services include:

24/7 technical assistance

On-site support and maintenance

Remote diagnostic services

Training programs for operators and maintenance personnel

Access to spare parts and replacement components

Customization options to meet specific project needs

Our team of experienced technicians and engineers are dedicated to providing reliable and efficient support to ensure the optimal performance of our Flat Top Tower Crane product.

## Packing and Shipping:
