

## Tailored Customizable Work Platform Lift With 6m/min Speed Guarantee

### Our Product Introduction

for more products please visit us on [hycmtowercrane.com](http://hycmtowercrane.com)

#### Basic Information

- Place of Origin: China
- Brand Name: HYCM or XINGDAO
- Certification: CE, ISO
- Model Number: SC Building Hoist
- Minimum Order Quantity: 1 set
- Price: \$19900-21300 per set
- Packaging Details: Naked packing, 1\*40'HQ containers.
- Delivery Time: 10 days after receiving the deposit or origin LC
- Payment Terms: Western Union, L/C, T/T
- Supply Ability: 40 sets per month

#### Product Specification

- Guarantee: 1 Years Guarantee, Spare Parts Always Available
- Working Height: 6-100m
- Speed: 6m/min (50 Hz Area)
- Motor Power: 2\*2.2kw
- Payload: 1000kg-2000kg
- Product Name: High Rise MC Single Mast Portable Telescoping Adjustable Work Platform Lift Materials And People
- Max Freestanding Height: 9m
- Product Category: Building Construction Hoist
- Highlight: Tailored Work Platform Lift, 6m/min Work Platform Lift,

## Product Description

### Product Description:

This hoist comes with a 1-year guarantee, and spare parts are always available, ensuring that any downtime is minimized. Additionally, this hoist is OEM, meaning that custom logos are always welcome.

The platform of this hoist is 10m in length, providing ample space for workers and materials. The adjustable height work platform allows workers to easily access different levels of a building, improving productivity and safety.

Safety is a top priority with the Building Construction Hoist. This hoist is equipped with various safety devices, including a fall arrest device, loading capacity limiter, limit switch, upper limit protection device, lower limit protection device, door limit protection device, escaping window limit protection device, bell warning device, emergency stop protection device, buffering protection device, motor overload protector, transformer short-circuit protection device, and phase sequence protection device.

Whether you are looking to transport workers and materials to different levels of a building or need a small platform lift for maintenance and repair work, the Building Construction Hoist is a reliable and safe choice.

### Features:

Product Name: Building Construction Hoist

Condition: 100% New

Motor Power: 2\*2.2kw

Type: One Mast Section

Minimum Quantity: 1set

Safety devices:

Fall arrest device

Loading capacity limiter

Limit switch

Upper limit protection device

Lower limit protection device

Door limit protection device

Escaping window limit protection device

Bell warning device

Emergency stop protection device

Buffering protection device

Motor overload protector

Transformer short-circuit protection device

Phase sequence protection device

This Building Construction Hoist is a mobile lifting platform designed to provide a lift work platform for various construction and maintenance tasks. The adjustable height work platform is powered by a 2\*2.2kw motor and comes with essential safety devices to ensure maximum safety during operation.

### Technical Parameters:

Condition	100% New
OEM	Yes, customs logo always welcome
Speed	6m/min (50 Hz area)
Benefits	Reduces access time by as much as 90%, Reduces building ties by up to 80%, Improve site security both during and after working hours, Flexible extension platforms to contour most buildings, Precision leveling reduces repetitive strain injuries, Mobile chassis for quick and easy relocation, Less damage to components compared to its traditional multi handling, Replace trailing cable and expensive distribution points, Reduces contract time by as much as 40%, Weather screening improves productivity
Motor Brand	Torui, Xingxiang, Sanshang, Juli Or Other

Load	1000kg
Working Height	6-100m
Payload	1000kg-2000kg
Product Category	Building Construction Hoist
Product Name	High Rise MC Single Mast Portable Telescoping Adjustable Work Platform Lift Materials and People

This industrial platform lift is an adjustable height work platform designed specifically for lift for construction work. It features a durable construction and precision leveling to reduce repetitive strain injuries. The flexible extension platforms can contour most buildings, while the mobile chassis allows for quick and easy relocation. With weather screening to improve productivity, this lift reduces access time by as much as 90% and building ties by up to 80%. It also improves site security both during and after working hours, and reduces contract time by as much as 40%.

## Applications:

The SC Building Hoist is ideal for a wide range of applications and scenarios. It can be used for industrial platform lift, which makes it perfect for factories, warehouses, and other industrial settings. It is also suitable for single mast lift, which is perfect for construction sites, high-rise buildings, and other tall structures.

The HYCM or XINGDAO SC Building Hoist is CE and ISO certified, which means that it meets the highest standards of quality and safety. It is manufactured in China and has a minimum order quantity of 1 set. The price ranges from \$19900-21300 per set, and the payment terms include Western Union, L/C, and T/T.

The SC Building Hoist has a working height of 6-100m and a platform height of 10m. It requires a power supply of 380V/50Hz or others, making it suitable for use in a wide range of settings. The supply ability of the product is 40 sets per month, and the delivery time is 10 days after receiving the deposit or origin LC.

The packaging details of the SC Building Hoist include naked packing in 1\*40'HQ containers. The product is 100% new and is designed to provide reliable and efficient performance. Whether you need a single mast lift for construction work or an industrial platform lift for your factory or warehouse, the HYCM or XINGDAO SC Building Hoist is the perfect solution.

## Support and Services:

The Building Construction Hoist product comes with comprehensive technical support and services to ensure optimal performance and safety. Our team of experienced technicians are available to assist with installation, maintenance, and repairs. We also offer training programs to ensure proper operation and maintenance of the hoist. In addition, we provide on-site inspections and assessments to ensure compliance with safety regulations and standards. Our goal is to provide reliable and efficient service to our customers, and we are committed to delivering the highest level of technical support and services.

## Packing and Shipping:

Product Packaging:

The hoist will be packed in a sturdy wooden crate to prevent any damage during transportation.

The crate will be wrapped with plastic to protect it from dust and moisture.

All the necessary accessories and parts will be included and securely packed in the same crate.

Shipping:

The hoist will be shipped via a reliable and reputable shipping company.

The shipping company will provide a tracking number for the customer to track the shipment.

The estimated delivery time will be communicated to the customer, and the shipping company will ensure timely delivery.

Any customs or import duties will be the responsibility of the customer.

## FAQ:

**Q1: What is the brand name of the building construction hoist?**

A1: The brand name of the building construction hoist is either HYCM or XINGDAO.

**Q2: What is the model number of the building construction hoist?**

A2: The model number of the building construction hoist is SC Building Hoist.

**Q3: What certifications does the building construction hoist have?**

A3: The building construction hoist has CE and ISO certifications.

**Q4: What is the minimum order quantity for the building construction hoist?**

A4: The minimum order quantity for the building construction hoist is 1 set.

**Q5: What is the price range of the building construction hoist?**

A5: The price range of the building construction hoist is between \$19900-21300 per set.

**Q6: What payment terms are accepted for the building construction hoist?**

A6: The accepted payment terms for the building construction hoist are Western Union, L/C, and T/T.

**Q7: What is the supply ability of the building construction hoist?**

A7: The supply ability of the building construction hoist is 40 sets per month.

**Q8: What is the delivery time for the building construction hoist?**

A8: The delivery time for the building construction hoist is 10 days after receiving the deposit or origin LC.

**Q9: How is the building construction hoist packaged?**

A9: The building construction hoist is packaged in naked packing and is shipped in a 1\*40'HQ container.
