

## 4kw Motor Power Hydraulic Washing System Steel Concrete Tower Boom With Pipe Line

Our Product Introduction

for more products please visit us on [hycmtowercrane.com](http://hycmtowercrane.com)

### Basic Information

- Place of Origin: China
- Brand Name: HYCM
- Certification: CE, ISO, GOST, CU-TR
- Model Number: QTK25 fast erecting tower crane
- Minimum Order Quantity: 1 set
- Price: \$40600-42900 per set
- Packaging Details: Naked packing, 1\*40'HQ containers.
- Delivery Time: 30 days after receiving the deposit or origin LC
- Payment Terms: Western Union, L/C, T/T
- Supply Ability: 40 sets per month

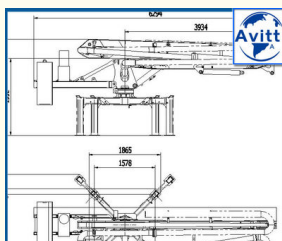

### Product Specification

- High Pressure Flexible Concrete Hose Length: 3000 Mm
- Product Category: Travelling Tower Crane
- Power Supply: 380V/50Hz Or According To Client's Requirements
- Remote Control: Wired Remote Control
- Working Pressure Of Hydraulic System: 20mpa
- Rotation Scope: 360
- Support: Outrigger (4 Legs)
- Type: Fixed And Mobile Type
- Highlight: 4kw Tower Boom, Hydraulic Tower Boom, Steel Tower Boom

## Product Description

### Product Description:

The Travelling Tower Crane product, known as the HGY14-3 Concrete Placer Boom 13.5m Light Load by Tower Cranes on Top Building, is a versatile and efficient equipment designed for heavy-duty construction projects. This tower crane load is equipped with impressive features that make it an essential tool for vertical conveying tasks, thanks to its maximum vertical conveying distance of 13.5m.

When it comes to performance, this tower crane description showcases a remarkable slewing speed range of 0.2-0.3/min, ensuring precise and efficient operation on the construction site. Whether it's lifting heavy loads or maneuvering materials to different heights, this tower crane proves to be a reliable and powerful asset.

One of the standout attributes of this type of tower cranes is its dual functionality as a fixed and mobile type. This versatility allows the tower crane to adapt to various construction scenarios, providing flexibility and convenience to operators.

Furthermore, the inclusion of a wired remote control adds to the convenience and safety of operating this tower crane. The remote control feature allows operators to have full control over the crane's movements, ensuring accuracy and efficiency in handling loads and positioning materials.

In conclusion, the Travelling Tower Crane product, with its exceptional slewing speed, impressive vertical conveying distance, and versatile fixed and mobile type design, is a top-of-the-line solution for construction projects requiring precision and efficiency. Its tower crane load capabilities, combined with advanced features such as wired remote control, make it a valuable asset for any construction site.

### Features:

Product Name: Travelling Tower Crane

Type: Fixed And Mobile Type

Working pressure of hydraulic system: 20mpa

Max. Vertical Conveying Distance: 13.5m

Max. boom length: 13.5 m

Max. Horizontal Conveying Distance: 13.5m

### Technical Parameters:

System Pressure	20 MPa
Max. Horizontal Conveying Distance	13.5m
Product Category	Travelling Tower Crane
Slewing speed	0.2-0.3/min
Remote control	Wired remote control
Rotation Scope	360
Max. Vertical Conveying Distance	13.5m
Type	Fixed And Mobile Type
Working pressure of hydraulic system	20mpa
High pressure flexible concrete hose length	3000 mm

### Applications:

The **HYCM.QTK25 fast erecting tower crane** is a top-of-the-line product specifically designed for various product application occasions and scenarios in the construction industry. With certifications including CE, ISO, GOST, and CU-TR, this tower crane guarantees high quality and safety standards for all your construction needs.

Originating from China, the HYCM tower crane is known for its reliability and efficiency, making it a popular choice for construction projects worldwide. With a minimum order quantity of 1 set and a price range of \$40600-42900 per set, this tower crane offers exceptional value for money.

Accepted payment terms for the HYCM tower crane include Western Union, L/C, and T/T, providing flexibility for customers. With a supply ability of 40 sets per month and a delivery time of 30 days after receiving the deposit or original LC, customers can rely on timely and efficient service.

The tower crane's packaging details involve naked packing in 1\*40'HQ containers, ensuring secure transportation to the construction site. Powered by electricity, this tower crane is equipped with a steel DN125 mm concrete pipe line specification and a 3000 mm high-pressure flexible concrete hose length.

Featuring a max boom length of 13.5 m and a wired remote control, the HYCM tower crane offers precision and control during operation. Its versatility makes it suitable for a wide range of tower crane working scenarios, including high-rise building construction, bridge construction, and more. Whether you need to lift heavy materials or work at great heights, this tower crane is up to the task.

## Support and Services:

Our Product Technical Support and Services for the Travelling Tower Crane include:

- On-site troubleshooting and repair services
- Remote technical assistance via phone or email
- Regular maintenance and servicing programs
- Training programs for operators and maintenance staff
- Access to online resources and manuals for troubleshooting
- Warranty and post-warranty support services

## Packing and Shipping:

Product Packaging and Shipping for Travelling Tower Crane:

The Travelling Tower Crane is carefully packaged to ensure its safe delivery to your location. Each component is securely wrapped and protected to prevent any damage during transportation.

Shipping Method:

We use a reliable shipping service to deliver the Travelling Tower Crane to you. The package will be tracked to provide you with real-time updates on the delivery status.

## FAQ:

**Q: What is the brand name of the tower crane?**

A: The brand name of the tower crane is HYCM.

**Q: What is the model number of the tower crane?**

A: The model number of the tower crane is QTK25 fast erecting tower crane.

**Q: Where is the tower crane manufactured?**

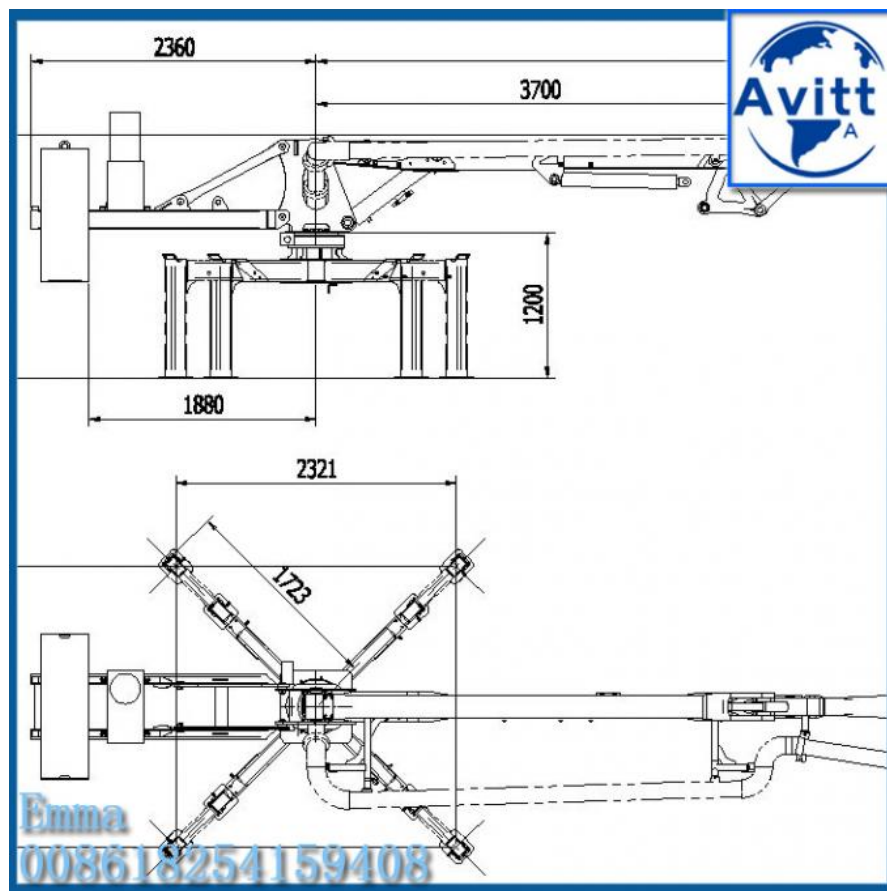

A: The tower crane is manufactured in China.

**Q: What certifications does the tower crane have?**

A: The tower crane is certified with CE, ISO, GOST, and CU-TR.

**Q: What are the available payment terms for purchasing the tower crane?**

A: The available payment terms are Western Union, L/C, and T/T.
