## Product Description

### Mast Elevator Racks For SC Construction Building Hoist Mast Sections

#### Application for Construction Hoist of Mast Section

No.	Hoist Model	Cage Number
1	SC50	Single cage
2	SC100	Single cage
3	SC150	Single cage
4	SC200	Single cage
5	SC100/100	Double cage
6	SC150/150	Double cage
7	SC200/200	Double cage

#### Advantages

1. Model: 40\*60\*1508mm, or 40\*60\*1483mm or OEM according to drawing or sample.
2. Materials: CL60 special rail steel, 60# high quality carbon steel(common use) or other type C55,C50, C45 according to your requirement.
3. Used for SC series Construction Hoist / Building Hoist / Construction Elevator

**The rack can be customized according to customers' requirements (drawing, specifications and so on)**

#### Feature

The gear rack is stable and hard to wear.

We adopt CNC machining to ensure high precision of products.

The location of the mounting hole can be customized according to your requirements.

Raw material use 60# steel, high strength and hardness.

The surface treatment is adopted spray painting or hot galvanizing, strong corrosion resistance and longer service life.

The gear is round and the rack is straight, and the two bite into each other to achieve movement, providing power assist for the hoist's climb.

The elevator rack is installed above the mast section, through the transmission system, combined with the gear, so as to achieve the lift up and down.
