Features

Durable, safe and low-maintenance cranes live up to the highest manufacturing standards. They are durable, operator-friendly, safe and have low maintenance requirements.

Quality materials for durability

Our components are traceable back to original premium-quality manufacturers, ensuring that they can easily be replaced when necessary. The quality of our components assure good resistance to fractures under conditions of high loading and low temperatures.

Quality steel mill-certified to European EN standards.

High-quality components from suppliers represented worldwide.

Protected: For safeguarding, all components are fitted into housing of the highest quality. Fully enclosed motors - IP55 - ensure long lasting motor insulation.

Easily identifiable: Cables and components are numbered or marked for easy identification, reducing maintenance time and costs.

Efficient: Virtually all internal electrical installation is done using multi-plug connections which reduces erection time.
