PT7427 18t Tower Crane And Lifting Equipments For The High Rise Building

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: HYCM
- Certification: CE, ISO, GOST, CU-TR
- Model Number: QTZ315(PT7427) Tower Crane
- Minimum Order Quantity: 1
- Price: $171300-177600 per set
- Packaging Details: Naked packing, 10*40;HQ containers.
- Delivery Time: 35 days after receiving the deposit or origin LC
- Payment Terms: TT, LC
- Supply Ability: 5 sets per month

Product Specification

- Condition: 100% New
- Application: Buildings And Projects
- Type: Fixed With Tower Head
- Max. Load: 18 T
- Jib Length: 74 M
- Tip. Load: 2.7 T
- Power supply: 380V/50Hz Or According To Client's Requirements
- Mast section: 2*2*3m
- Electric Box: Schneider
- Power Supply: 380V/50Hz, 415V/50Hz, 220V/50Hz Or According To Clients Need
- Highlight: **18t flat top tower crane**, **high rise building lifting equipment**, **PT7427 tower crane with warranty**

Product Description

PT7427 18t Tower Crane And Lifting Equipments For The High Rise Building

Description

1. For a reliable crane with the technology to position even the heaviest load at the site with pinpoint precision, see our range of flat top cranes. This range is ideal for sites with height restrictions as well as in situations when available mobile cranes restrict the weight of the individual crane components, as the flat top crane's jib can be erected and dismantled piece by piece!
2. We offers an extensive range of flat top cranes spanning 400 to 2300tm which ensures that we can meet any lifting requirements.
3. 15 Years of experience in a worldwide market ensures that all concerns are addressed in every design. For instance, wherever possible all cranes and components are designed to be packed into standard shipping containers, minimizing shipping costs. Likewise, speed and ease of erection are always taken into account.
4. All of our flat top cranes are built to the highest quality offering our full array of features.

Specification

Model		PT7427 Tower Crane
Type		Fixed with outside climbing of buildings
Working Radius (m)		74
Max. Load Capacity (T)		18
Tip Load (T)		2.7
Free standing height (m)		62.5
Max. Height with anchorages (m)		180
Mast Section dimension (m)		2×2×3, Angle steel 200×26mm
Hoisting Mechanism	Speed (m/min)	0-60 0-30
	Motor power (kw)	45
Slewing Mechanism	Speed (r/min)	0-0.6
	Motor power (kw)	2*5.5
Trolleying Mechanism	Speed (m/min)	0-60
	Motor power (kw)	5.5
Jacking-up System	Speed (m/min)	0.4
	Motor power (kw)	5.5
Total Power (kw)		61.5
Power Supply		380V/50Hz, 220V/60Hz or others

The Advantages

1. Reduce the dismounting requirements, lower weight, low mounting height, dismount each mast at a time in the air, save the labor cost, safety and fast.
2. It is suitable for crossover work of the cranes, without the tower cap and pull rod, the safety will be increased when there need the crossover work.
3. It is suitable for the special requirement about the height, such as airport nearby, tunnel, workshop ,and the construction site with high-tension cable.
4. It is suitable for the construction site that has the requirement about the crane boom, it can be used as internal climbing crane in the high-rise buildings, irregular roof or small areas.
5. It is very convenient for dismounting in the restricted construction site, dismount each crane boom at a time by manual.
