Product Description

Mast Section with Racks Used for Building Hoist Construction Elevator

1. Our mast section is in high quality, stability and the structure is in high tension.
2. Our company enjoys very advantageous geographical location and convenient transportation. Welcome to visit our factory at any time!

Application for Construction Hoist of Mast Section

No.	Hoist Model	Cage Number
1	SC50	Single cage
2	SC100	Single cage
3	SC150	Single cage
4	SC200	Single cage
5	SC100/100	Double cage
6	SC150/150	Double cage
7	SC200/200	Double cage

Advantage
The mast section stulls are change to U-model structure refers to the Alimak Hek technology, andhey can be more solid than domestic general types.

1. High precise fixture and durable main steel frame

2. Good qualified raw materials and strict producting techniques

3. GB/T19001-2000-ISO9001:2000 certificate of quality

4. Adopt international standards approval certificate

5. Adopt Welding Robort to weld, reliable in quality and elegant in appearance.

6. Square steel frame:the connection plates between pipe rails are bended by large machine.The bended steel is firm, good verticality, stability. Moreover it ensure stable of the whole structure.

7. All the structure adopt Tooling fixed technology to ensure stable perfomance and stability

8. The Mast section(color is variable) is made of seamless pipe.(The high quality seamless steel pipe is good verticality, anti-pressure, anti-aging, thickness and so on)
