Advantage
Automatic impeller blasting and spraying assembly line
Adopt the world first-class automatic spraying assembly line. The large structure parts are dealt with impeller blasting before spraying. That remove steel surface oxides and welding spatters effectively, eliminates the internal stress producing in welding process, increases the parts' anti-figure strength and steel surface hardness, increases painting adhesion and prolong the service life of the product maximizes efficiency and saves energy.

Strict quality examination
The strict quality test, raw material test, test of welding, checking welding quality of appearance, assembly and adjustment of jib, tower head and pivot in factory.

We have professional packing person to pack and put the tower crane in the container or on to the truck.

Our Service
------Quality Assurance
Good quality is assured by advanced manufacturing technology. And all products will be checked by our quality-control manager.
